Certificate IV

Training & Assessment

This course is a nationally recognised qualification suited to people who have substantial responsibility for Vocational Education and Training (VET) in program development, delivery and assessment of training participants and employees. This is a challenging and rewarding program presented in a comprehensible style with individual support if required.

This course is offered as an achievable concentrated program to allow for minimum interruption to your work schedules yet with time effective completion.

This program is offered in a combination of 2 or 3-day blocks with breaks of approx 3 weeks between allowing time for completion of projects, assignments and research. Your training session will be delivered in 'clusters' or blocks, which can be customized to suit industry groups.

Assessment will take place using a combination of strategies that will include simulated and workplace activities, project work, self-paced and group-based work. You will build throughout the training; a comprehensive portfolio will be the basis of the final assessment. Substantial support is available to all candidates.
