Course Overview V1.1

TAESS00011 Assessor Skill Set

COURSE OVERVIEW

WHO SHOULD COMPLETE THE SKILL SET?

This skill set is designed to provide VET practitioners with the assessor competencies to meet Standards for RTOs requirements.

Entry Requirements:

There are no formal prerequisite units required to study this skill set.

However, it is recommended you have the opportunity in the workplace to gather your evidence for successful completion and have the support of a training professional who has prior knowledge within the VET sector and preferably holds the current TAE qualification to support your successful completion.

HOW IS THE PROGRAM DELIVERED?

The program is delivered over 4 days of face to face workshops with a highly qualified trainer and assessor who will align the program to your required outcomes.

Before you attend the program, you will have a discussion with your trainer about your learning outcomes, training needs, special requirements and your career aspirations so that you get what you want from your studies. You will be guided to explore options that suit your individual requirements within the program.

Where the skill set is being delivered for your workplace then the trainer and assessor will liaise with the training representative to discuss your learner group and particular requirements.

HOW WILL YOU BE ASSESSED?

Assessment is competency based and evidence based, so you will be required to demonstrate evidence of your ability to perform the tasks required and the knowledge required to complete the units of competency.

Assessment Methods: You will be required to complete structured activities, which are workplace relevant, knowledge questions and be observed directly by your assessor delivering your skills instruction sessions and participating in validation sessions.

- Knowledge Questions
- Structured Activities
- Observation

HOW LONG WILL IT TAKE TO COMPLETE?

The skills instruction sessions and validation sessions will be completed and observed by your assessor during the course of the 4 days. You will be required to complete structured activities to demonstrate your skills which includes the design of assessment plans and assessment tools and assessing individuals against nationally recognised units of competency.

You will commence these activities during the 4 days but will not have sufficient time during this period to complete all of the requirements. You will be required to complete the remaining evidence and knowledge questions over the next 4 months.

Depending upon your prior knowledge this may take you on average between 70 - 100 hours to complete in full. Experienced people with good computer skills may achieve competency in a shorter period of time.

You will have 4 months to complete the skill set.

HOW MUCH DOES IT COST?

\$1235 per person. Minimum 6 people. Maximum 8 people to maximise interaction with the trainer and assessor and learning outcomes.

WHAT IS INCLUDED IN THE SKILL SET?

The skill set has four units of competency.
